

**Ireleth St Peter's CofE Primary School (ISP)**

**DATA PROTECTION POLICY 2021-2023**

Approved by			
<b>Name:</b>	Rachael McFarlane	Daniel Edwards	
<b>Position:</b>	Headteacher	Foundation Governor	
<b>Signed:</b>	<i>R E McFarlane</i>	<i>D Edwards</i>	
<b>Version Number:</b>	18	<b>Date:</b>	September 2021
<b>Proposed review date<sup>2</sup>:</b>	September 2023		

## REVIEW SHEET

The information in the table below details earlier versions of this document with a brief description of each review and how to distinguish amendments made since the previous version date (if any).

Version Number	Version Description	Date of Revision
1	Original	March 2012
2	Minor changes to Privacy Notices	July 2012
3	Changes Highlighted.	November 2012
4	Reformatted only	February 2014
5	Updated to take account of the DfE model Privacy Notices issued July 2014. NOTE: Appendices C and D have been amalgamated.	July 2014
6	Minor revisions and contact detail changes only to Privacy Notices	July 2015
7	Updated Privacy Notices	December 2016
8	Updated Privacy Notices in line with the GDPR.	October 2017
9	Updated Privacy Notices to reflect DfE revised models released January 2018.	January 2018
10	Major re-write to comply with GDPR	May 2018
11	Updated Privacy Notices to reflect DfE revised models released 16 May 2018 and minor amendment to point 4.7	May 2018
12	Updated - Appendix D reflecting DfE Governor Privacy notice - July 2018	September 2018
13	Updated to include changes to model Privacy Notices made by DfE October 2018	October 2018
14	Updated Privacy Notices to reflect DfE revised models released Dec 2018	December 2018
15	Updated Privacy Notices to reflect DfE revised models released August 2019	August 2019
16	Updates: Section 10.5 (data transfers from UK to EEA after 31 January 2020), Updated S9, new S9.2 & new/updated appendices (to make more specific reference to Covid-19 pandemic related use of data, updated consent form (now named Appendix F), updated model privacy notices Appendices B, C and D & new visitor privacy notice Appendix E, new Appendix G Visitor Record Form (old Appendix F renamed to H because it is landscape!))	September 2020
17	Updated with changes to the Covid-19 isolation period from 14 days to 10 days	December 2020
18	Significant and minor policy updates. Significant updates to Privacy Notices, Section 10.5: Data transfers, new definition of third country, explicit inclusion of volunteers (workforce personal data, their role and training), new reference and link to an example data asset register and breach self-assessment tool, removed almost all of Section 9.2 on Public Health Emergencies, reduced consent options, new SAR form with guidance notes, updated consent form to reflect reduced choice. Also replaced GDPR with UK GDPR and updated links throughout, more clearly defined Information Society Services, more explicitly referenced carers as well as parents.	September 2021

- Appendix H - Data Classifications and Handling Requirements

## 1. Introduction

The Data Protection Act 2018 provides a legal framework for data protection in the United Kingdom (UK). It **incorporates** the General Data Protection Regulations (GDPR), the legal framework that sets guidelines for the collection and processing of personal information of individuals within the European Union (EU) **and is sometimes referred to as UK GDPR**.

**UK GDPR** significantly updates previous Data Protection law to reflect changes in technology and the way organisations collect and use information about people in the 21<sup>st</sup> century. It regulates the processing of personal data and gives rights of privacy protection to all living persons.

In accordance with the DPA, we at Ireleth St Peter's CofE School recognise that we collect and process personal data and because we decide how and why we do that, we are *data controllers*. This means that we have legal obligations to people regarding how we handle their data and manage their privacy and we must register as a data controller with the Information Commissioner's Office (ICO). Anyone can read the details of our ICO notification by going online to <https://ico.org.uk/esdwebpages/search> and entering our registration number. Data controllers are normally organisations and not people although our Head teacher is responsible for everything we do day-to-day and we have appointed a Data Protection Officer (DPO).

Our ICO Registration Number is: 00016878306

Our Data Protection Officer is: Ms. Abbie Bolton.

Contact our DPO on 01229 462710 or email them at: [dpo@irelethst-peters.cumbria.sch.uk](mailto:dpo@irelethst-peters.cumbria.sch.uk)

We recognise that when we process personal data it can involve collecting, recording, organising, storing, altering, retrieving, using, disclosing, restricting, and erasing or destroying it, and there can be risks associated with that processing to the people whose data it is. Failure to adequately protect people's personal information can result in significant, even life-changing harm to some individuals, distress, loss of public trust in us, and legal repercussions including fines and other sanctions.

### 1.1. Policy purpose

Through this policy we aim to ensure that current and future pupils, staff, volunteers, and other partner organisations can feel confident that our school is a safe and secure place to **learn** or work, and to demonstrate our commitment to protecting the rights and privacy of everyone whose data we handle by setting out:

- our obligations in the context of what we do;
- clear roles, responsibilities, reporting and management structures aimed at protecting people's personal data and their rights;
- clear procedures for handling data to achieve our aim of taking reasonable and proportionate steps to protect people.

### 1.2. Policy scope and definitions

This policy applies to all governors, trustees, staff, and volunteers who handle or have access to personal data regardless of where they are physically working e.g. at home, at another organisation, on trips, and to all personal information processed by us or on our behalf. This includes the personal information of our data subjects accessed or used by other organisations which work for or with us e.g. Local Authority workers, contractors, consultants, certain service providers. It may also include the personal data of other people which pupils acquire through schoolwork tasks or while at school e.g. survey results, class Christmas card lists, and pupils will have some responsibilities in line with their capacity to understand and follow rules.

The following definitions explain a little more about our approach to personal data:

**'Data processors'** are third party organisations which process data on our behalf. They make no decisions about how and why they do that, they just do what we ask them to within the terms of our contract.

**'Data subjects'** are the people about whom we hold data, and they fall into several general "categories of person", for example, our workforce and their next of kin; pupils, their next of kin, and other professionals involved with them; our contractors (cleaners, caterers, health & safety, and other service providers); agency and other partner organisation workers (supply or peripatetic teachers, educational psychologists).

**'Personal data'** is any manually or digitally recorded information relating to a living person (a data subject) which identifies them e.g. a name, an email address, an identification number, location data, an image, an IP address, or one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that person and may include facts or opinions about them. Some of this category of personal data will require enhanced security measures such as encryption, password protection and stricter electronic as well as manual access controls e.g. a locked filing cabinet. This will be determined on the basis of a risk assessment of the harm that failing to secure the data might cause e.g. bank details due to the risk of potential fraud; contact information due to potential harassment etc.

**'Sensitive personal data'** or **'special category data'** includes disability status, sexual orientation, sex life, ethnicity, medical information (both physical and mental health), political, philosophical and religious opinions/beliefs, trade union membership, and details of criminal convictions or allegations. This category of personal data requires enhanced security measures such as encryption, password protection and stricter electronic as well as manual access controls e.g. a locked filing cabinet.

**'Pseudonymised personal or sensitive personal data'** is information that has been de-personalised but key-coded and it can fall within the scope of the **UK GDPR** and this policy depending on how difficult it is to attribute the pseudonym to a particular individual.

**'Supervisory Authority'** is the body that regulates compliance with the GDPR and in the UK this is the ICO.

**'third country'** may have two meanings to us.

'Third countries' according to the EU GDPR are states that fall outside of the EU GDPR zone (the EU member states plus Norway, Liechtenstein and Iceland). The EU GDPR restricts transfers of personal data to such 'third countries' unless the personal data is protected in another way, or an exception applies. When the UK left the EU, it became a 'third country' to the EU under EU GDPR and the exceptions that now apply to the UK are the [adequacy decision on transfers under EU GDPR](#) and the [adequacy decision on transfers under the Law Enforcement Directive](#) on data transfers between the EU and UK.

A 'third country' to the UK after leaving the EU, is any state or country worldwide which is not a part of the UK and to which the UK under UK GDPR restricts transfers of personal data unless the personal data is protected in another way, or an exception applies. The exceptions that currently apply to some of these 'third countries' are limited and described in the [adequacy decisions](#) the UK has made (see Section 10.5 for more information).

We will make anyone with whom we share the personal data of our data subjects aware of our relevant policy, procedures, and expectations at the outset of sharing.

Any breach of this policy, or of the Regulation itself must be reported to our Data Protection Officer and may need to be reported to the ICO as the Supervising Authority for the United Kingdom. The breach could be unlawful and result in legal action or prosecution and regardless of any legal repercussions it may also be actionable under our disciplinary procedures.

This policy will be updated as necessary to reflect improving practice in data management, security and control and to ensure compliance with any changes to relevant legislation.

**Associated policies or documents include:**

- Overarching Safeguarding Statement
- Child Protection Policy and procedures
- Online Safety Policy and procedures
- Freedom of Information Publication Scheme
- Health and Safety Policy and procedures
- Procedures for Using Pupils' Images
- Whole School Behaviour Policy and procedures

- Staff Code of Conduct

## 2. Roles and Responsibilities

### Our responsibilities as a data controller include:

- Analysing and documenting the types of personal data we hold and their uses.
- Identifying our lawful basis for processing personal data.
- Having procedures which support the rights of the individual.
- Ensuring consent procedures are lawful.
- Implementing and reviewing procedures to detect, report, and investigate personal data breaches.
- Storing data in safe and secure ways.
- Assessing risks to individual rights and freedoms should data be compromised.

### Staff responsibilities include:

- Understanding their data protection obligations in line with their training and professional duties.
- Checking that their data processing activities comply with our policy and are justified.
- Not using data in any unlawful way.
- Storing data carefully and correctly to avoid breaches of data protection.
- Raising concerns, notifying breaches or errors, and reporting anything suspicious or contradictory to this policy or our legal obligations without delay.

### The Data Protection Officer's responsibilities include:

- Keeping governors/trustees updated about data protection responsibilities, risks, and issues.
- Reviewing the data protection policy, associated policies, and all relevant procedures regularly.
- Arranging data protection training and advice for all staff and others included in this policy.
- Advising on direct marketing issues such as compliance with the law and our policy; how we deal with queries from target audiences or media outlets; and the wording of data protection statements attached to emails and other marketing copy.
- Answering questions on data protection from staff, governors/trustees, and other stakeholders.
- Responding to individuals such as parents, pupils, and employees who want information.
- Checking on and approving of any third parties that handle our data and any contracts or agreements regarding data processing.

### The Information Technology Manager's responsibilities include:

- Ensuring all systems, services, software, and equipment meet acceptable security standards and can be appropriately filtered and monitored.
- Checking security hardware and software regularly to ensure it is functioning properly and securely.
- Researching relevant third-party services (cloud services, data shredding etc.) that we are considering using.

## 3. Data Protection Principles

We understand that as a data controller we are responsible for, and need to be able to demonstrate that we comply with the principles set out in Article 5 of the GDPR which requires that:

### a). Personal data shall be processed lawfully, fairly and in a transparent manner in relation to individuals.

We aim to achieve this through carefully considering why we need data before we ask people for it; by publishing our Privacy Notices, implementing them, and reminding people about what the notices says when we ask for data; and by educating our workforce on what they mean for their day-to-day practice.

### b). Personal data shall be collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes.

By keeping our Privacy Notices updated, implementing them, and educating our workforce about what we have and have not agreed to use data for (also in line with requirement a) above), we can

ensure we meet this obligation to restrict our processing of personal data. The law does allow us to further process data for archiving purposes in the public interest, or for scientific or historical research purposes or statistical purposes and we have declared that we might do this in our Privacy Notice.

**c). Personal data shall be adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.**

We will not seek to collect or process personal data which is not strictly necessary for the reasons we asked to be given it. We keep this in mind when we draft data requests and when irrelevant information is provided we take all reasonable steps to return or erase it.

**d). Personal data shall be accurate and, where necessary, kept up to date.**

We review and update personal data on a regular basis. It is the responsibility of individuals providing personal data to ensure it is accurate. Individuals should notify us by any reasonable means, but preferably in writing, if their personal data needs to be updated e.g. a change of name or contact details. We will take every reasonable step to ensure that inaccurate personal data (after considering the reasons it is being processed), is erased or rectified without delay, for example, some records are historical and should not be changed.

**e). Personal data shall be kept for no longer than is necessary.**

We will not retain personal data in a form which allows people to be identified for longer than is necessary to use it for the reasons we asked for it. We employ organisational and technical security measures required by the [UK GDPR](#) in order to safeguard the rights and freedoms of individuals, as well as follow strict information transfer guidelines when we need to move data e.g. when a pupil leaves to attend another school. We hold regular reviews of the data we retain and destroy or archive it in line with guidance in the *'Information Management Toolkit for Schools'* published by the Information Records Management Society.

The law does allow us to retain personal data for archiving purposes in the public interest, or for scientific or historical research purposes or statistical purposes and we have declared that we might do this in our Privacy Notices.

**f). Personal data shall be processed in a manner that ensures appropriate security of it.**

We understand that our organisational and technical measures to protect data must include protection against unauthorised or unlawful processing and against accidental loss, destruction or damage in the UK, European Union or anywhere else in the world.

We make staff and volunteers aware of their data protection responsibilities and that their duty to preserve confidentiality extends to anywhere that they process the data of our data subjects e.g. at home, on trips etc. and beyond their time of employment with us. See [Section 10.2](#) for more information about the organisational and technological measures we employ to achieve this.

The first principle of data protection is **fair, lawful and transparent processing**, and is the foundation on which everything else is built. We seek to meet the "fair" and "transparent" aspects through our Privacy Notices, and we work hard to ensure that all of the personal data we process meets a condition for lawful processing so that we have a lawful basis to carry it out.

### 3.1. Conditions for the lawful processing of personal data

To process a piece of personal data we must satisfy at least one condition for the lawful processing of personal data from Article 6 of the GDPR set out in the table [overleaf](#).

<b>6(1)(a)</b> Consent of the data subject.
---

<b>6(1)(b)</b>	Necessary for the performance of a contract with the data subject or to take steps to enter into a contract.
<b>6(1)(c)</b>	Necessary for compliance with a legal obligation.
<b>6(1)(d)</b>	Necessary to protect the vital interests (life) of a data subject or another person.
<b>6(1)(e)</b>	Necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.
<b>6(1)(f)</b>	Necessary for legitimate interests of the controller or a third party, except where such interests are overridden by the interests, rights or freedoms of the data subject ( <u>not</u> available to processing carried out by public authorities in the performance of their tasks).

We rely on different conditions for the lawful processing of personal data for different things.

To process the personal data of our **workforce and volunteers** we generally rely on 6(1)(b) i.e. to employ them and provide training, uniform, pay etc. Some pieces of data are processed for other reasons. For example, we use their national insurance number for tax purposes relying on 6(1)(c); we hold their next of kin data relying on 6(1)(d); and we use their image relying on 6(1)(a).

To process the personal data of our pupils we generally rely on 6(1)(e) i.e. to educate them. Some pieces of data are processed for other reasons. For example, we publish their exams/SATs results relying on 6(1)(c) because the law requires us to; we hold their next of kin data relying on 6(1)(d); and we use their image sometimes relying on 6(1)(a).

We rely on different conditions to process different pieces of the personal data of families e.g. 6(1)(b) for their financial details to provide meals, photographs etc.; and 6(1)(d) for their contact details in case their child is ill. We use the same criteria to process the personal data of other individuals such as contractors or Local Authority workers etc. where it applies and most often using 6(2)(b) to work together.

### 3.2. Conditions for the lawful processing of special categories of data

To process a piece of sensitive personal data we must satisfy at least one condition for the lawful processing of special categories of data from Article 9 of the GDPR set out the table below **as well as** one condition from the previous table.

<b>9(2)(a)</b>	Explicit consent of data subject, unless prohibited by EU/National law.
<b>9(2)(b)</b>	Necessary to meet obligations under employment, social security or social protection law, or a collective agreement.
<b>9(2)(c)</b>	Necessary to protect the vital interests (life) of a data subject or another individual where the data subject is physically or legally incapable of consenting.
<b>9(2)(d)</b>	Processing by a not-for-profit body with political, philosophical, religious or trade union aims if it relates only to members/former members (or those in regular contact for those purposes) & there is no disclosure to third parties without consent.
<b>9(2)(e)</b>	Processing relates to personal data already made public by the data subject.
<b>9(2)(f)</b>	For the establishment, exercise or defence of legal claims or court judicial capacity.
<b>9(2)(g)</b>	Substantial public interest under EU/National law proportionate to the aim pursued and which contains appropriate safeguards.
<b>9(2)(h)</b>	For preventative or occupational medicine; assessing work capacity of an employee, medical diagnosis, providing health & social care or treatment or management of healthcare services under EU/National law or contract with a health professional.
<b>9(2)(i)</b>	For public health e.g. protecting against serious cross-border threats to health or ensuring high standards of healthcare & medicinal products or medical devices.

We rely on different conditions for the lawful processing of sensitive personal data for different things.

To process the sensitive personal data of our **workforce and volunteers** we rely on 9(2)(b) to check their criminal history before employing them; 9(2)(h) to use their health information to protect them at work; 9(2)(a) to share their health information with support services; 9(2)(i) to report on their health to Public Health England (PHE) or the Health & Safety Executive (HSE) as required; and 9(2)(f) to retain accident and ill-health information in case of a claim for compensation.

To process the sensitive personal data of our pupils we rely on 9(2)(b) in respect of child protection and multi-agency safeguarding work; 9(2)(b) or 9(2)(h) to use their health information to protect them at school; 9(2)(i) to report on their health to PHE or the HSE as required; and 9(2)(f) to retain accident and ill-health information in case of a claim for compensation.

We apply the same criteria to processing the sensitive personal data of families and other individuals such as contractors or Local Authority workers etc. where it applies.

### 3.3. Deciding which condition to rely on

More than one lawful basis may apply, but we only need **one** basis for each piece of data, and we will rely on what best fits the purpose, not what is easiest. When carrying out a new task or an existing task in a new way, staff should consider the following factors:

- What is the purpose for processing the data?
- Can it reasonably be done in a different way?
- Is there a choice as to whether or not to process the data?
- Who does the processing benefit?
- After selecting the lawful basis, is this the same as the lawful basis the data subject would expect?
- What is the impact of the processing on the individual?
- Are we in a position of power over them?
- Are they a vulnerable person?
- Would they be likely to object to the processing?
- Are we able to stop the processing at any time on request, and have we factored in how to do this?

### 3.4. Privacy Notices

Our Privacy Notices **are** an important and necessary way of being transparent and telling governors/**trustees**, parents, pupils, and staff what we are doing with their information. To comply with the **law** it will include:

- Our identity and contact details as the data controller and those of our DPO.
- The purpose of the processing and the lawful basis or bases we are relying on.
- Our, or a third party's legitimate interests in having it.
- The categories of personal data we process.
- Any recipient or categories of recipients of the personal data.
- Details of transfers to UK Government determined "third countries" and the safeguards.
- Retention periods or the criteria used to determine them.
- The existence of each of the data subject's rights.
- The right to withdraw consent at any time, where relevant.
- The right to lodge a complaint with the ICO.
- The sources of personal data and whether they are publicly accessible.
- Whether providing personal data is statutory or contractual and the possible consequences of failing to provide it.
- The existence of any automated decision making, including profiling; how decisions are made, the significance and the consequences.

Our privacy notice relevant to pupils can be found at [Appendix B](#), the one relevant to our workforce **and volunteers** at [Appendix C](#), the one relevant to our governors at [Appendix D](#), and the one relevant to our

visitors at [Appendix E](#). They are also made available on our website, on noticeboards, in communications with parents and staff etc.

## 4. Individuals' rights and how we protect them

We recognise that all data subjects have "qualified rights" so they are not absolute rights in all circumstances. They are qualified by the rights of other individuals and the legal rights of the data controller or processor to conduct their lawful business.

### 4.1. The right to be informed about the collection and use of their personal data

Our Privacy Notices seek to provide transparency about our collection of personal data; they are published on our website, pinned to noticeboards, and freely available on request from our office; we draw people's attention to what they say when we collect data from them; and we regularly review and update the Notices when necessary, particularly if we have changed what we use the data for and before we start using it for the new reason.

### 4.2. The right of access to their personal data and relevant supplementary information

This includes:

- confirmation that their data is being processed;
- access to their personal data; and
- other supplementary information which largely corresponds to the information we must provide in our Privacy Notices.

Any of our data subjects (or their chosen representative or a person with parental responsibility for them) can make a Subject Access Request (SAR). Please see [Section 5](#) for our procedure on handling SARs.

### 4.3. The right to rectification if the information held is inaccurate or incomplete

Every individual has a responsibility under [UK GDPR](#) to provide accurate data. [There is no legal](#) definition of accuracy, but we generally understand it to mean that personal data is inaccurate if it is incorrect or misleading on matters of fact.

The right to rectification will depend on why we asked for the personal data. For example: a person's name should **not** be changed to their new married name on the Single Central Record (SCR) because the SCR is a record of information correct at the time of recruitment and vetting. A note [should](#) be added to ensure the SCR record can be matched to the [correct living](#) person in case of a vetting query using the married name in future, but the record itself should not be changed.

When we receive a request to change the data we hold, we will take reasonable steps to check that the data is accurate and to rectify it if necessary. This means that the more important it is that the data is accurate, the more effort we will make to correct it. We will take into account arguments and evidence provided by the data subject and anything we have already tried to do to ensure the data is accurate.

We can refuse to comply with a request for rectification if the request is manifestly unfounded or excessive, taking into account whether it is repetitive. We can either request a reasonable fee based on the administrative costs of complying with the request, or we can refuse to deal with the request. We will use ICO guidance and our own information management records to make decisions about this and we will contact the person making the request to inform them of our decision (including any fee payable) and the reasons without undue delay and **within one month**. We do not have to comply with the request until we have received the fee.

As a matter of good practice, we will restrict the processing of the personal data in question while we are verifying its accuracy regardless of whether the data subject asked us to as is their right ([see Section 4.5](#)).

When we have decided whether the data is accurate or not and whether we will change it or not, we will explain our decision to the individual making the request and inform them of their rights to complain to the ICO. We will also make a record of the request and our response similar to the way we handle SARs

e.g. date of receipt, the data subject's name, the name and address of requester (*if different*), the rectification requested, our decision, and the date we communicated the decision.

#### 4.4. The right to erasure of personal data

Under Article 17 of the GDPR individuals have a new right to have their personal data erased. This is also known as the "right to be forgotten". There are no rules about how a request should be made e.g. verbally, in writing etc. so all staff are trained to recognise someone trying to exercise this right. The right is not absolute and only applies if:

- the personal data is no longer necessary for the reason we originally collected or processed it;
- we are relying on consent as our lawful basis for holding the data, and the individual withdraws their consent;
- we are relying on legitimate interests as our basis for processing, the individual objects to the processing of their data, and there is no overriding legitimate interest to continue
- we are processing the personal data for direct marketing purposes and the individual objects;
- we have processed the personal data unlawfully i.e. in breach of the lawfulness requirement of the 1st principle;
- we have to do it to comply with a legal obligation; or
- we have processed the personal data to offer online "information society services" to a child under the age of 13 e.g. an app, game, social media platform etc. that we subscribe to and offer to children but do not *require* them to use for the purposes of education. Any such services we currently provide or broker are necessary for education purposes so the right to erasure may not apply, but we are aware of our obligations and will act accordingly. We also work hard to appropriately control children's access to the social media platforms we use to communicate with our community.

We have to give special consideration to any request for erasure if the processing of the data is solely based on consent given by a child, especially any processing of their personal data (usually images) on the internet. This is still the case when the data subject is no longer a child because a child may not have been fully aware of the risks involved in the processing at the time of consent. In some circumstances we might need to give more weight to a request for erasure from a child if their parent has already consented to the use of their data e.g. removing pictures from our school website when a parent has consented but the child whose images they are objects. We will need to do this if we are confident that the child understands their rights and the effects on them of their request. For more information about how we decide whether a child understands please see [Section 5](#) on Subject Access Requests.

Unless it is impossible or disproportionate, we have to tell other organisations about erased data if:

- the personal data we erased has been disclosed by us to others; or
- the personal data has been made public in an online environment (for example on social networks, forums or websites).

If we are asked, we should also tell the individual about the other organisations we gave their data to.

The right to erasure does **not** apply if processing is necessary for one of the following reasons:

- to exercise the right of freedom of expression and information;
- to comply with a legal obligation;
- for the performance of a task carried out in the public interest or in the exercise of official authority;
- for archiving purposes in the public interest, scientific research, historical research or statistical purposes where erasure is likely to make achievement of that processing impossible or disproportionately difficult; or
- for the establishment, exercise or defence of legal claims.

There are also two circumstances when the right to erasure does **not** apply to special category data:

- if the processing is necessary for public health purposes in the public interest; or
- if the processing is necessary for the purposes of preventative or occupational medicine.

When we receive a request to erase data, we will take reasonable steps to check the identity of the requester and that they have the right to make the request before considering it.

We can refuse to comply with a request when an exemption applies, or when the request is manifestly unfounded or excessive. We can either request a reasonable fee based on the administrative costs of complying with the request, or we can refuse to deal with the request. We will use ICO guidance and our own information management records to make decisions about this and we will contact the person making the request to inform them of our decision (including any fee payable) and the reasons without undue delay and **within one month**. We do not have to comply with the request until we have received the fee.

When we have decided whether we can erase the data we will explain our decision to the individual making the request and inform them of their rights to complain to the ICO. We will also make a record of the request and our response similar to the way we handle SARs e.g. date and manner of request (verbally to class teacher, a note handed to reception etc.), the data subject's name, the name and address of requester (*if different*), the erasure requested, our decision, and the date we communicated the decision.

#### **4.5. The right to restrict the processing of personal data**

Under Article 18 of the GDPR individuals have the right to limit the way we use their data if they have a particular reason for wanting to, and this is an alternative to erasing it. They may have issues with the content of the information or how we have processed it. In most cases we will not be required to restrict an individual's personal data indefinitely but will need to have the restriction in place for a certain period of time. The right is not absolute and only applies if:

- the individual contests the accuracy of their personal data and we are verifying it;
- the data has been unlawfully processed i.e. in breach of the 1st principle, and the individual doesn't want it erased;
- we no longer need the personal data but the individual needs us to keep it in order to establish, exercise or defend a legal claim; or
- the individual has objected to us processing their data under Article 21(1), and we are considering whether our legitimate grounds override those of the individual.

We use the most appropriate method applicable at the time to restrict processing including:

- temporarily moving the data to another processing system;
- making the data unavailable to users; or
- temporarily removing published data from a website.

While a restriction is in place we will not do anything with data except store it unless:

- we have the individual's consent;
- it is for the establishment, exercise or defence of legal claims;
- it is for the protection of the rights of another person; or
- it is for reasons of important public interest.

If we have disclosed the restricted data to another organisation we will tell them about the restriction in the same way as if it were inaccurate data unless this proves impossible or involves disproportionate effort. If asked to, we will also inform the individual about these recipients.

We can lift the restriction when we have decided that the issues are resolved i.e. the data is accurate or our legitimate grounds override the individuals' and we will inform the individual and include our reasons before we lift it. We will also tell them about their right to make a complaint to the ICO.

We can refuse to comply with a request when the request is manifestly unfounded or excessive. We can either request a reasonable fee based on the administrative costs of complying with the request, or we can refuse to deal with the request. We will use ICO guidance and our own information management records to make decisions about this and we will contact the person making the request to inform them of our decision (including any fee payable) and the reasons without undue delay. We do not have to comply with the request until we have received the fee.

#### 4.6. The right to data portability

The right to data portability only applies when all 3 of the following conditions are met:

- the individual has provided the personal data;
- the processing is based on the individual's consent or for performance of a contract; **and**
- processing is carried out by automated means.

We do not currently hold any qualifying data, but we are aware of our **legal** obligations and will follow ICO guidance, reviewing our procedures if we automate any processing.

#### 4.7. The right to object to processing

Individuals must have an objection on "grounds relating to his or her particular situation" and we must stop processing the personal data unless:

- we can demonstrate compelling legitimate grounds for the processing, which override the interests, rights and freedoms of the individual; or
- the processing is for the establishment, exercise or defence of legal claims.

We will:

- inform individuals of their right to object "at the point of first communication" and in our privacy notices, explicitly bringing the right to their attention clearly and separately from any other information;
- stop processing personal data for *direct marketing purposes* as soon as we receive an objection because there are no exemptions or grounds to refuse; and
- deal with an objection to processing for *direct marketing* at any time and free of charge.

An individual can object to processing for research purposes on "grounds relating to his or her particular situation" unless processing is necessary for the performance of a public interest task.

We carry out some processing of personal data **securely in encrypted** online **systems** e.g. our visits approval system, responding to DfE data demands online, and any individual can object to our online processing by contacting us at [head@irelethst-peters.cumbria.sch.uk](mailto:head@irelethst-peters.cumbria.sch.uk)

#### 4.8. The right to object to automated decision making and profiling

We do not currently use any data systems that make automatic decisions about people without any human involvement. We are aware of our **legal** obligations and will follow ICO guidance, reviewing our policy and procedures if we fully automate any decision-making.

### 5. Subject Access Requests

Every individual who is our data subject has the right to access their personal data so that they are aware of and can verify the lawfulness of the processing, including children of any age who understand what they are requesting. These rights do not automatically override the rights of any other individual who might be identified by our response to a request, so we will make a decision on what information to disclose by balancing the data subject's right of access against any other individuals' rights in respect of their own personal data. We will use the latest ICO guidance on SARs to help us make decisions.

The data subject or the person acting on their behalf must make a SAR in writing and we provide a form at [Appendix A](#) to help people do this. There is no requirement to use our form, but it can speed up the process by helping the people making requests to provide us with the kind of information we need to comply. We will also make any reasonable adjustment for disabled people who may be unable to make their SAR or receive information in writing e.g. accepting a verbal request, providing a braille response etc. Relevant staff are trained to recognise a SAR even when it does not include the words "subject access", or refer to the applicable legislation, including where the wrong legislation is quoted i.e. often the Freedom of Information Act.

When we receive a SAR it will be entered in the Subject Access Request log book, including the date of receipt, the data subject's name, the name and address of requester (*if different*), the type of data requested (e.g. pupil record, personnel record), whether there is enough information to respond appropriately (and the immediate action taken to seek more if not), and the expected date for providing the information.

We aim to provide information without delay and at the latest **within one month** of receipt of the request. For example: if we receive a SAR on the 10<sup>th</sup> of the month we will respond by the 10<sup>th</sup> of the following month. We will seek to extend this response period by up to the two further months which **the law** allows where requests are complex or numerous. If this is the case, we will inform the individual within one month of the receipt of the request and explain why the extension is necessary.

SARs made by pupils will be processed in the same way as any other SAR and the information will be provided to the child regardless of their age unless it is clear that they do not understand their rights. If we are sure that the pupil **does not** understand the SAR and their rights, we will refer the matter to parents, comply if they agree, and provide the information to parents.

SARs made by people on behalf of children they hold parental responsibility for will be processed in the same way as any other SAR while recognising that they do not own the data they are requesting. If we are confident that the pupil whose data it is **does** understand the SAR and their rights, then we will respond to the child rather than the parent, even where the parent was the one who made the request.

In making our decision we will take the following, amongst other things, into account:

- the child's level of maturity and their ability to make decisions like this;
- the nature of the personal data;
- any court orders relating to parental access or responsibility that may apply;
- any duty of confidence owed to the child or young person (including information about any counselling or other service being offered directly to the child);
- any consequences of allowing those with parental responsibility access to the child's or young person's information (particularly important if there have been allegations of abuse or ill treatment);
- any detriment to the child or young person if individuals with parental responsibility cannot access this information; and
- any views the child or young person has on whether their parents should have access to information about them.

If the information requested by a parent in a SAR relates to the 'educational record' of a pupil, in accordance with *'The Education (Pupil Information) (England) Regulations 2005'*, we will make a pupil's educational record available for inspection by the parent, free of charge, **within fifteen school days** of receipt of the parent's written request for access. This cannot include any information that we could not lawfully disclose to the pupil themselves. If parents request a copy to keep, we can charge the administrative costs of supplying one.

If the information requested in a SAR does **not** relate to the 'educational record' of a pupil, we will provide a copy of the information free of charge **unless** the request is manifestly unfounded or excessive, particularly if it is repetitive. This fee may vary and will be based only on the administrative cost of providing the information. We will use ICO guidance and our own information management records to make decisions about this.

We must verify the identity of the person making the request, using "reasonable means". If the person making the request is not the data subject, we must also verify their right to make such requests on behalf of the data subject e.g. their authority to act or their parental responsibility for a child. In cases where a child is competent to make their own request, information will be provided to the child and not to the parent. We will use ICO guidance and our knowledge of the capability of our pupils as described above to make decisions about this.

If the request is made electronically, we will provide the information in a commonly used electronic format.

If we are asked for a large quantity of information about an individual, we can ask the individual to be more specific about the information they want. This is not because we are exempt from providing large amounts of data, this is so we can consider whether the request is manifestly unfounded or excessive.

If we are asked for information that a data processor we work with holds on our behalf, we will ask our data processor to provide it to us so that we can comply with the SAR. This is because we are the data controller and it is our responsibility. We have written contracts in place with all of our data processors to help us do this.

A Subject Access Request should be made in writing to: Mrs. J. Doherty at the school address or via [admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)

## **6. Data Protection and Privacy by Design**

Data protection and privacy by design is an approach to projects and tasks that promotes privacy and data protection compliance from the start and is a clear **legal** requirement of us. This is not just about the strategic decisions we make building new IT systems for storing or accessing personal data and developing policy or strategies that have privacy implications. It is also about collecting or sharing data in a new way or using data for new purposes.

Our aim is to minimise privacy risks and build trust so all staff will have a central role to play in keeping what we do compliant. When handling data in a different way staff are trained to first consider the impact of what they are doing and how they are doing it in relation to data protection and privacy, with the ten questions in [Section 3.3](#) playing an important part in the process. This could be as simple as ensuring consent forms containing sensitive personal data are not carried in a clear folder on a trip, or as complex as thoroughly vetting an overseas data transfer service when a pupil leaves us to attend a school outside the European Economic Area (EEA).

We use the ICO guidance on Data Protection Impact Assessments (DPIAs) as an integral part of our approach to data protection and privacy by design. We also consult our DPO at the outset of any new data project.

### **6.1. DPIAs**

**We understand that we have a legal obligation** to do a Data Protection Impact Assessment (DPIA) before carrying out processing likely to result in a high risk to individuals' interests. If our DPIA identifies a high risk which we cannot mitigate, we must consult the ICO before proceeding.

A DPIA is a process to systematically analyse our processing and help us identify and minimise data protection risks. It is meant to:

- describe the processing and our purposes;
- assess the necessity and proportionality of what we are planning;
- identify and assess risks to individuals; and
- identify any measures to mitigate those risks and protect the data.

It does not have to eradicate the risk but should help to minimise risks and consider whether or not they are justified. We will need to do a DPIA if we plan to:

- use new technologies;
- use profiling or special category data to decide on access to services;
- profile individuals on a large scale;
- process biometric or genetic data;
- match data or combine datasets from different sources;
- collect personal data from a source other than the individual without providing them with a privacy notice ('invisible processing');
- track individuals' location or behaviour;
- profile children or target services at them; or
- process data that might endanger the individual's physical health or safety in the event of a security breach.

All staff have a responsibility to identify when their activities around data imply the need for a DPIA. This could be doing an entirely new task with data, or it could be changing the way a well-established task is being done. Staff will work in conjunction with Mrs. R. E. McFarlane to conduct any DPIA's.

## 7. Training & Awareness

During their induction, all staff **and volunteers** will receive suitable training in their responsibilities for data protection in their work **or volunteering**, and the relevant procedures. This will be supplemented with staff briefings, inset training, and other methods of updating staff **and volunteers** as necessary e.g. briefing emails, notices etc.

This policy is available to all staff **and volunteers** in hard copy in the school office and electronically on the staff network in the policy file. It can also be provided to others on request. This policy will be updated regularly in line with changes in practice or clarifications required after applying it to resolve data protection issues.

Anyone can seek general data handling guidance from the ICO on their website <https://ico.org.uk>.

Day-to-day support and guidance for staff is available from Ms. Abbie. Bolton on [dpo@irelethst-peters.cumbria.sch.uk](mailto:dpo@irelethst-peters.cumbria.sch.uk)

Any other category of person wanting help with a data protection issue e.g. contractors, parents etc. can also contact Mrs. J. Doherty at the school office or are free to contact our DPO using the published contact details.

## 8. Publication of Information

At times we publish information which includes personal data, for example:

- internal telephone directory,
- event information,
- staff information,
- lists of students in a team.

Other things we publish can be subject to an individual's consent and we will seek it as required and consider all reasonable requests to correct, erase or restrict data processing in line with our **legal** obligations.

## 9. Managing Consent

We only need one lawful reason to process personal and special category data and the law provides us with 6 reasons to choose from for personal data (see [Section 3.1](#)) and 9 reasons for sensitive personal data (see [Section 3.2](#)). This means it is extremely rare for us to have to rely solely on consent as our *only* lawful basis for processing.

When we do need consent **and we ask for it**, we will include the following information **in our request**:

- the name of our school;
- the name of any third party controllers who will rely on the consent;
- why we want the data;
- what we will do with it; and
- that individuals can withdraw consent at any time.

People will be asked to actively indicate their consent in words and if there are different options, these will be made clear e.g. consent for a child to participate in an event being clearly separate from any consent to use images of them taken at the event (if no standing images consent is already held).

There is no set time limit for consent. How long it lasts depends on the context and what we have told people in our Privacy Notices **or** other communications. We review and refresh consents as appropriate.

Genuine consent should put individuals in control, build trust and engagement, and enhance our reputation so, when we do rely on it, we need to keep a record that helps show it was freely given e.g. who consented, when, how, and what they were told.

### 9.1. Consent to use personal data including images and voice recordings

We *do not* need parental consent to process any personal data including image or voice recordings for the purposes of education e.g. photographs or video of an Early Years child or child with SEND demonstrating how they meet a learning outcome. Using names, image and voice recordings of children in their work and in displays inside school, is a fundamental part of their education, personal development and how we celebrate them. This does not affect the statutory rights of individuals as set out in [Section 4](#). Anyone can raise any concern with any member of staff about our use of their or their child's data at any time and we are obliged to ensure their rights are upheld where we have no lawful reason to refuse.

We *do* need parental consent to use personal data including image and voice recordings for other reasons such as marketing or self-promotion in publications and on websites or social media platforms directly managed by us or, with our permission, by others associated with us and may include pictures that have been drawn by children. Images that might cause embarrassment or distress will not be used nor will image or voice recordings of children be associated with materials or issues that are considered sensitive. Anyone with parental responsibility for a child can ask to see any images that we hold of them at any time.

There is no legally binding age of consent in the UK with regard to the use of an individual's own data, including their image or voice, except when providing an Information Society Service (ISS) directly to a child online and solely on the basis of their consent. In the UK this particular age of consent is 13 years old. We do not currently offer any ISS and have no plans to. This means that any child of any age can assert their data rights or consent to the use of their data under the [law](#), providing we are sure that they understand their rights and the implications of their consent. For more information about how we make decisions about a child's competence to consent or withdraw consent that their parents have previously provided, please see [Section 5](#).

Photography, audio recording or filming will only take place at school or school events with the permission of the Head teacher/ manager, and under appropriate supervision.

Regardless of who is publishing data, and that includes us, our policy is that children will only be named if there is a particular reason to do so e.g. they have won a prize, and no other personal details will be published or given out. If names will, or might, be published e.g. in a newspaper article, we will check that parents understand the potential implications and consent to the use of names at that time and before the publishing happens. The news media will often require a child's full name before they will publish an image and our policy is to resist this wherever possible and if we fail, we will take steps to ensure that parents are aware that all of the details will be available in local or national newspapers and worldwide online.

We allow parents, [carers](#), and other invited visitors to take images of children at school functions, but we reserve the right to enforce special restrictions on a case-by-case basis. They are required to bear in mind that they may capture other people's children and must ensure images are appropriate. They are also required to agree that they will only share them publicly i.e. post them to social media, with the express permission of the parents of everyone in the images. In our Behaviour Policy and our Online Safety Policy we also require all parents and children to support our approach to online safety and not upload or post to the internet any pictures, audio, video or text that could upset, offend or threaten the safety of any member of the school community or bring the school into disrepute.

Our policy around consent is to ask once when a child starts their career with us for separate general consents to use image and/or voice recordings:

- a) publishing on our website or in other print or online media which we directly control, or
- b) allowing carefully selected third party organisations such as local media outlets to publish them.

We use the form at [Appendix E](#) to seek consent and we remind parents and children regularly that they can change or withdraw their consent at any time.

When a child understands their right of consent and its full effects and there are no reasons why their name, image or voice must be protected, we can prioritise the consent of a child over parental consent where they are different. We are more likely to decide not to use images etc. when a child objects and their parent does not than vice versa, but our overriding priority will always be to act in the child's best interests.

Staff are expected to make themselves aware of [any guidance we use from our local authority, Local Safeguarding Children Partnership, or governors, or KAHSC General Safety Series G21: The Use of Images Working with Children](#), and to apply the principles in all use of image and voice recordings.

## 9.2. Data sharing during a public health emergency: consent and data retention

In line with our statutory duties, we require anyone who comes into close contact with our pupils, staff, buildings, or equipment (including our staff and pupils) to share with us necessary personal data to give to an organisation authorised by a relevant public health authority so they can take action to protect public health. We do not need consent for this and in a public health emergency this is no different to our normal practice when we are required to report that staff or pupils have contracted a notifiable disease like meningitis or measles, or if we have a food poisoning incident on our [premises](#).

## 10. Data Security and Integrity

Article 5(1)(f) of the GDPR concerns the 'integrity and confidentiality' of personal data. It says that personal data shall be: "Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures".

The security measures we put in place seek to ensure that the data:

- can be accessed, altered, disclosed or deleted only by those we have authorised to do so and that those people only act within the scope of the authority we give them;
- is accurate and complete in relation to why we are processing it; and
- remains accessible and usable, i.e. if personal data is accidentally lost, altered or destroyed, we should be able to recover it and prevent any damage or distress to individuals.

All staff and any others who process the personal data of our data subjects are expected to work to the same principles we do at all times.

### 10.1. Classification of data

We carry out regular data audits to identify data that we control and the risks to every kind of processing we do to that data, and we keep a record to help us deal with any issues or requests. As part of this systematic approach we operate 3 levels of data classification to ensure the appropriate security measures can be taken to keep the data safe:

- **Public:** Information that does not require protection and is considered "open and unclassified" and which may be seen by anyone whether directly linked with school or not. Information is likely to already exist in the public domain e.g. [the information the DfE publishes about our governors/trustees on the Get Information About Schools public database online](#).
- **Confidential:** Information that, if disclosed inappropriately, may result in minor reputational or financial damage to the school or may result in a minor privacy breach for an individual. Information that should only be available to sub-groups of school staff who need the information to carry out their roles.
- **Sensitive:** Information that has the potential to cause serious damage or distress to individuals or serious damage to the school's interests if disclosed inappropriately. Information which is sensitive in some way because it might be sensitive personal data, commercially sensitive, legally privileged or under embargo. This information should only be available to a small tightly restricted group of authorised users.

The appropriate marking of data as to its classification is an operational decision on a case-by-case basis. Most of our data held in electronic databases is classified automatically by the information management systems that hold it. Information that is transferred e.g. emailed, posted, moved to an archive etc. must be appropriately classified and marked to ensure it will be treated properly.

[Appendix H](#) sets out some of our specific data security expectations at each different level of data classification and we share it with staff and others who have legal obligation to us when they process data that we control

All data classifications are reviewed at the point of entry into our archive. All archived data is appropriately labelled with:

- the final data classification;
- any specific restrictions i.e. not to be released to named parent under court order;
- how the data is to be destroyed e.g. incineration, cross-cut shredding, shredding, or electronic data scrubbing/shredding;
- when the data is to be destroyed.

Staff responsible for archiving are trained to assess and manage any increasing risks that can arise as data about one person is aggregated.

## 10.2. Organisational and technical security measures

The main organisational and technical measures we employ include:

- Appropriate physical security measures for the site, buildings, restricted areas and restricted storage containers including locks, restricted access codes and alarms.
- Appropriate physical access and security procedures including limiting access to areas or stores to certain key holders, and procedures to welcome visitors aimed at preventing unauthorised access e.g. visitors' badges, signing in/out, whether a visitor can only access certain areas while accompanied etc.
- Ensuring unauthorised personnel cannot see documents or screens which might display personal data e.g. open registers and visitor's books, emails, CCTV monitors.
- Suitable contracts of employment or technology access agreements for pupils, visitors and others aimed at ensuring the proper use of personal data and maintenance of confidentiality.
- Appropriate storage arrangements that avoid physical risks (flood, fire etc.), loss (lost devices, accidental destruction etc.) or electronic degradation (corruption caused by electricity or magnetism, new software unable to read files created using old software etc.).
- Appropriate technological or procedural security measures including:
  - The installation of appropriate security software (including for virus and malware checking) on all devices used to process personal data, instructions on how to use it properly, and the requirement on all data users to adequately secure devices i.e. carrying portable devices securely and activating an encrypted screen lock when leaving a device unattended even for a minute.
  - Restricting access to school devices containing personal data to employees and specially authorised volunteers, visitors or service providers. Staff using a work device off-site must take steps to secure their work device from use by anyone else including family.
  - Enforcing our strict protocol on the use of personal devices to process personal data obtained at work, including a requirement for secure remote access to school systems (See Staff Handbook;
  - Restricting the number of people who can access certain data by limiting online logins, protecting parts of our network to hide them from unauthorised users, and by having procedures in place to designate authorised users and give only them the proper access;
  - Enforcing our strict password protocol for access to any personal data whether it is online, on a device, or being transferred somewhere e.g. email. All staff who use Password Managers are required to apply the best practice guidance blog from the [National Cyber Security Centre](#) (NCSC).
  - Having appropriate data recovery arrangements in place to avoid accidental loss of data or password sharing i.e. so when someone is unavailable to provide access to data, with the proper authorisation their access can be reset and the data still obtained in their absence.

- Appropriate marking or designating of data as private or confidential or sensitive to ensure it is treated accordingly e.g. not printed to a publicly accessible printer.
- Adherence to strict controls on the transfer of data i.e. only as authorised and agreed via encrypted email or portable device, secure websites, password protected files, properly addressed and if necessary fully tracked postal packages, delivery by hand etc.
- Secure methods of disposal for both paper and electronic data shredding.
- Clear policies and procedures for the appropriate archiving and automatic backing up of necessary data including off-site e.g. essential data identified in the Emergency Preparedness Plan to ensure business continuity.
- Clear and binding contracts with our data processors such as our health & safety provider and people who we jointly control data with such as the outdoor adventure centres we go on residential trips to.

All enquiries about the policies and procedures that should be followed and how data should be protected or destroyed can be addressed to the DPO, Mrs. J. Doherty, or System IT.

The consequences of getting **data security** wrong can be very serious for our most vulnerable data subjects and breaches of data protection may be subject to disciplinary action and further subject to legal action or criminal prosecution.

### **10.3. Email**

All staff are expected to adhere to the good practice around the use of email set out in the current Information and Records Management Society 'Toolkit for Schools' understanding their role and responsibilities with regard to:

- the 8 things they must know about email including that it is not always a secure medium to send confidential information by, that email is disclosable under the Freedom of Information Act 2000, that any employer has a right to monitor the use of email under the Regulation of Investigatory Powers Act 2000, and that email is one of the most common causes of stress in the work-place;
- creating and sending email;
- sending attachments;
- using disclaimers;
- managing received e-mails; and
- retaining emails.

Others who have legal obligations to us because they process data we control will be made aware of our email protocols as necessary.

All staff are required to use the authorised email disclaimer as follows:

*The content of this email is strictly confidential and intended for the named recipient/s only. Access to this email by anyone other than the intended recipient is unauthorised. If you are not the intended recipient, you should destroy this message and notify us immediately either by telephone or email (01229 462753 or [admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)). Do not pass on the email to anyone else and do not print it.*

*The views, opinions, conclusions and other information expressed in this email are solely those of the sender and do not necessarily represent those of Ireleth St Peter's.*

*If you or your employer does not consent to internet email messages of this kind, please notify us immediately. Please note the school cannot accept responsibility for any loss or damage arising from the use of this e-mail or attachments, therefore we recommend that you subject these to your virus checking procedures prior to use.*

## 10.4. Transfers of data outside the UK

Transfers of personal data outside the UK are treated differently depending on which countries it is being transferred between or through, what is being transferred, why and how, and how closely those countries' approaches to data protection align with the UK's.

We will follow current ICO guidance on [International transfers after the UK exit from the EU Implementation Period](#) and [Standard Contractual Clauses \(SCCs\) after the transition period ends](#) for country specific requirements when we need to transfer personal data internationally.

Regarding transfers between the UK and the EU:

When the UK left the EU on 31 January 2020 it entered a "transition" period which kept existing UK-EU data transfer rules aligned as if the UK were still part of the EU ('frozen GDPR'). This allowed freedom of movement for data to continue to flow as before.

On 28 June 2021, the EU approved [adequacy decisions](#) for the EU GDPR and the Law Enforcement Directive (LED) i.e. it was agreed that the UK as a third country to the EU ensures an adequate level of protection of the rights and freedoms of EU data subjects to allow transfers. This means that data (excluding data transferred from the EU to the UK for the purposes of UK immigration control) can continue to flow as it did before, in the majority of circumstances until 27 June 2025.

Following the above ICO guidance allows us to continue to meet our data protection obligations. We will also refer [new or uncertain international transfers of personal data to or from the UK](#) to our DPO when making decisions about the safety, security, and lawfulness of transferring it.

## 10.5. Record keeping

The [legislation](#) contains some explicit provisions about documenting our processing activities but that is not the reason we keep records. We need to know what data we have and how we use it to be able to control it effectively; we need to be able to justify our decisions about data; and we may need to provide evidence to the ICO as part of a data breach investigation.

We use the ICO [GDPR Documentation Template](#) to fully comply with the record keeping required of us under Article 30. It is the responsibility of all staff to ensure the spreadsheet remains a current reflection of how they work with data. Staff should report changes in their practice to Mrs. J. Doherty in order to comply with this.

We also keep records of our DPIAs, consent, staff training, and our contracts and data sharing agreements i.e. our employment and service provision contracts, processor contracts, and joint-controller data sharing agreements.

We also keep some simple logs which briefly detail:

- SARs;
- other types of data requests and what we did e.g. objection, rectification, withdrawal of consent, education record request etc.;
- data destruction;
- breaches.

All staff are made aware of our record keeping obligations and some staff are specially trained in managing them.

## 11. Data Sharing

See Privacy Notices

## 12. Data Retention

We can only keep personal data for as long as we need it. How long that is will depend on the circumstances and the reasons we obtained it.

We will generally follow the guidelines set out in the current Information and Records Management Society *'Toolkit for Schools'* and we will specifically follow requirements placed on us by our Local Authority and Local Children's Safeguarding Partnership in particular.

We typically retain pupil data and data about their family and other involved professionals until they leave us. Otherwise we retain it for a few days or weeks e.g. trip consent forms, or for 3-50 years depending on whether it is education related or incident related.

We typically retain **workforce** data for between 6 months and 6 years after **an event** or the end of their employment with us, depending on their role. Some pieces of data may need to be retained for 50 years such as records of potential exposure to radiation or asbestos.

We typically retain the personal data of contractors and other professionals in line with work **done** or contractual agreements, and longer in cases of dispute.

Some information is retained for more indefinite periods e.g. outreach programme take-up data so that we can analyse trends, or event photographs and accounts so that we can maintain a historical record.

We are required to keep indefinitely all child protection information that does not automatically move with a child **and remain live information elsewhere** when they leave us, pending the outcome of the Independent Inquiry into Child Sexual Abuse.

## 13. Data Disposal

We will dispose of all paper and digital data securely when it is no longer required. We follow guidance from [Centre for the Protection of National Infrastructure](#)

A Destruction Log will be kept of all data that is disposed of. The log will include any document ID, classification, date of destruction, method and authorisation.

## 14. Breach Reporting

Any breach of this policy or of data protection laws must be reported to the DPO as soon as practically possible i.e. as soon it becomes apparent. We have a legal obligation to report any qualifying data breaches to the ICO within 72 hours.

A qualifying data breach is one where, if not addressed in an appropriate and timely manner, it could result in physical, material or non-material damage to someone such as loss of control over their personal data or limitation of their rights, discrimination, identity theft or fraud, financial loss, unauthorised reversal of pseudonymisation, damage to reputation, loss of confidentiality of personal data protected by professional secrecy or any other significant economic or social disadvantage to them.

**If we experience a data breach and we are unsure whether it is a qualifying data breach that must be reported to the ICO, we will use the ICO [self-assessment tool](#) to decide.**

All staff and anyone else who owes us or our data subjects a legal duty, a duty of care, or a duty of confidentiality have an obligation to report actual or potential data protection compliance failures. This allows us to:

- investigate the failure and take remedial steps if necessary;
- maintain a register of compliance failures;
- notify the individuals affected; and
- notify the ICO of any compliance failures that are material in their own right or part of a pattern of failures.

Any member of staff who fails to notify of a breach or is found to have known or suspected a breach has occurred but has not followed the correct reporting procedures may be liable to disciplinary action.

Where others have been involved in a data breach, a report will also be made to their employer or DPO if relevant to the breach.

## 15. Our Obligations to our Data Processors

As the data controller we have obligations to our data processors when we give them the personal data of our data subjects which include in general, but are not limited to responsibilities to:

- provide accurate personal data and all necessary corrections in a timely manner;
- employ appropriate technical and organisational security measures when providing and using the personal data being processed;
- only request user access to the data processing for employees and the contractor at a level commensurate with their work tasks and responsibilities e.g. have the fewest possible users who are authorised and enabled to access the accident & incident reporting system which contains sensitive health data;
- respond promptly to requests from our processors for data updates and provide updated and accurate written instruction regarding the continued access to data that we require;
- require our users of any data processor's system to comply with strict password security measures e.g. length, complexity, not shared etc.;
- take appropriate action regarding any breaches;
- ensure our users of a processor's system website understand their responsibilities with regard to the DPA and the GDPR. Anyone found to have carried out unauthorised or unlawful processing activities must be made aware that they will be subject to disciplinary action by you and may be further subject to legal action or prosecution.
- inform our processor as immediately as possible if:
  - we need to remove security access i.e. to our data on their system, from individuals who no longer have any legal right or authority to access it e.g. employees who have left our employment,
  - we need their assistance to comply with a Subject Access Request,
  - we need them to stop processing the personal data of any of our data subjects,
- be sure of our grounds under the law for asking a processor to stop processing the personal data of any of our data subjects and that they are compatible with other applicable laws or legal rights,
- be very sure of our grounds to erase data under the law because we can expect to pay the full costs of any extraordinary measures required to recover erased data where we have failed in our duties.

All staff involved in using the data that we control with the processing services that we contract with have a duty to meet all of our conditions of service. Queries about our contracts for processing activities should be addressed to: Mrs. J. Doherty at the school office.

## Subject Access Request (SAR) Form

Under the Data Protection Act 2018 you have the right to ask us to supply you with a copy of any personal data we hold about you. This form is provided to help you give us the information we need to deal with your request. You do not have to use it but doing so will make it easier for us to respond fully and quickly.

Information supplied in this form will only be used for the purposes of identifying the personal data you are asking for and responding to your request. It will be processed in line with our data protection policy available from the school office.

If you want information about the categories of personal data we collect, our lawful bases for processing it, who we share it with and why, how long we keep it for, and your rights, please see our Privacy Notices available from the school office.

You can complete this form to make a SAR on behalf of someone else (acting as a third party) with their consent.

We aim to respond promptly and within one month of the date we receive your completed SAR form (or request that we recognise as a SAR) or the date we receive any further information that we need before we can comply with your request. If we consider your request complex, we can take up to an additional two months to respond. If this is the case, we will let you know within the one-month deadline, and as soon as possible.

We may consider your request complex if it:

- involves retrieval and appraisal of information from multiple sources;
- involves the retrieval of large volumes of information for one data subject which are difficult to separate from information relating to other data subjects;
- is one in a series of requests from the same person;
- involves the release of third-party data for which consent has been refused or cannot be obtained.

For the majority of cases, there is no fee to pay to make this request. However, if the request is deemed excessive or is a manifestly unfounded or repeat request, we may contact you to discuss an appropriate charge.

### **Before we can process a SAR for:**

- Your own personal data, we need to see proof of your identity and address to satisfy us that you are the person legally entitled to have it.
- The personal data of a child you hold parental responsibility for, we need to see proof of your identity and address and proof of your parental responsibility to satisfy us that you are the person legally entitled to have it.
- The personal data of someone else who has asked you to make a request on their behalf as a third-party, we need to see proof of your identity and address, proof of the data subject's identity and address, and proof that the data subject has consented to you making this request for them.

**Proof of identity and address** in one document can be found on a photocard Driver's Licence.

**Other proofs of identity** include a current passport (photo page), current national identity card, birth certificate.

**Proofs of address** must be dated within the last 3 months and could include a bank statement, credit card statement, utility bill, council tax statement, TV licence, HMRC tax document.

**Proofs of parental responsibility** could include a copy of (please do not include original documents):

Birth mothers (married or unmarried to the birth father) - child's birth certificate naming the child and mother.

Birth fathers (married to the birth mother) - child's birth certificate naming the child and father and the parents' marriage certificate.

Birth fathers (children born after 1 December 2003 when unmarried to the birth mother) - child's birth certificate showing re-registration of the birth after 1 December 2003 and naming the birth father, or a court order e.g. Parental Responsibility Order, or Residence Order, or proof of being appointed the child's Guardian by a Court, by the child's birth mother or by another Guardian, or a Parental Responsibility Agreement with the birth mother.

Birth fathers (children born before 1 December 2003 when unmarried to the birth mother) - child's birth certificate showing re-registration of the birth after 1 December 2003 or any document as for children born before 2003 above.

A person who is not the parent of a child aged 15 or under - a court order like a Residence or Special Guardianship Order, or proof of permission to make the SAR e.g. a signed letter of consent from a person with parental responsibility and/or from the child (if the child is aged 13 or over).

An adoptive parent of a child aged 15 or under - the Adoption Order.

We reserve the right to refuse your request if we are not satisfied you are who you claim to be or if we are unsure whether you have the legal right or valid consent from the data subject to make the request.

**Section 1: Subject Access Request Declaration**

I am the data subject (the person the information is about):  (Complete Section 2 onwards)  
I am acting on behalf of the data subject:  (Complete Section 1a onwards)

**Section 1a: Requestor's Personal Details**

Surname: \_\_\_\_\_ Full Forename(s): \_\_\_\_\_

My relationship to the data subject is: \_\_\_\_\_

Children aged 13 or over should make their own SAR unless they do not understand the request.

If you are acting on behalf of a child for whom you have parental responsibility, the child will be asked to consent to the information being released regardless of their age where they have the mental capacity to understand the request:

The child is aged 12 or under so obtaining consent independently of parents or carers may not be appropriate

The child is aged 13-15 and needs to complete a consent slip independently of parents or carers

The young person is aged 16 or 17 and has written and signed a letter of consent (please attach)

If you are acting as a third party on behalf of a data subject:

The data subject has provided consent to disclose the information requested YES  (please attach) NO

Address (if different from the data subject's): \_\_\_\_\_

Tel. number: \_\_\_\_\_ Email address: \_\_\_\_\_

**Section 2: Data Subject's Personal Details**

Surname: \_\_\_\_\_ Full Forename(s): \_\_\_\_\_

Date of Birth: \_\_\_\_\_ Class or job role: \_\_\_\_\_

Address: \_\_\_\_\_

Tel. number: \_\_\_\_\_ Email address: \_\_\_\_\_

**Section 3: Details of the Subject Access Request**

Please provide as much information as possible to help us find the personal data you want e.g. relevant dates or names, or if you believe a particular person or department holds the information, please tell us. *Please note* you are only entitled to personal data about the data subject and not third-party data (information about other people).

**Section 4: Proof of Identity, Address, Parental Responsibility, Other Legal Right, and Consent**

A person making a SAR must show they have the legal right to do so i.e. that they are the data subject, or they have parental responsibility for the data subject and/or have written consent from them. Data will not be disclosed without proof of identity for the data subject *and* the requestor if different *and* any written consent necessary. Please list the documents you are providing copies of as proof (see overleaf - please *do not* provide original documents).

**Section 5: Data Subject Declaration**

I declare that to the best of my knowledge the information I have provided on this form is correct.

**Signature of data subject**

(or parent/carer of): \_\_\_\_\_ **Date:** \_\_\_\_\_

**Name of data subject (or parent/carer of) Please print:** \_\_\_\_\_

# Ireleth St Peter's CofE School

## Privacy Notice

(How we use Pupil Information)

### Who processes your information?

Ireleth St Peter's CofE School is the data controller of the personal information you provide to us. This means the school determines the purposes for which, and the manner in which, any personal data relating to pupils and their families is to be processed. Mrs. J. Doherty and Mrs. R. E. McFarlane act as a representative for the school with regard to its data controller responsibilities; they can be contacted on 01229 462753 or [admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)

In some cases, your data will be outsourced to a third party processor; however, this will only be done with your consent, unless the law requires the school to share your data. Where the school outsources data to a third party processor, the same data protection standards that Ireleth St Peter's CofE School upholds are imposed on the processor.

Ms. Abbie. Bolton is the data protection officer. Their role is to oversee and monitor the school's data protection procedures, and to ensure they are compliant with the GDPR. The data protection officer can be contacted on 01229 462710 or [dpo@irelethst-peters.cumbria.sch.uk](mailto:dpo@irelethst-peters.cumbria.sch.uk)

### Why do we collect and use your information?

Ireleth St Peter's CofE School holds the legal right to collect and use personal data relating to pupils and their families, and we may also receive information regarding them from their previous school, LA and/or the DfE.

We collect and use personal data in order to meet legal requirements and legitimate interests set out in the GDPR and UK law, including those in relation to the following:

- Article 6 and Article 9 of the GDPR
- Education Act 1996
- Regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013

In accordance with the above, the personal data of pupils and their families is collected and used for the following reasons:

- To support pupil learning
- To monitor and report on pupil progress
- To provide appropriate pastoral care
- To assess the quality of our service
- To comply with the law regarding data sharing
- To safeguard pupils
- To meet statutory duties placed upon us for DfE data collections

### The categories of pupil information that we collect, hold and share include:

- Personal information (such as name, unique pupil number, contact details and address)
- Characteristics (such as ethnicity, language, and free school meal eligibility)
- Safeguarding information (such as court orders and professional involvement)
- Special educational needs (including the needs and ranking)
- Medical and administration (such as doctors information, child health, dental health, allergies, medication and dietary requirements)

For all queries about a SAR, please contact Mrs. J. Doherty at [admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)

- Attendance (such as sessions attended, number of absences and absence reasons and any previous schools attended)
- Assessment and attainment (such as key stage 1 and phonics results, post 16 courses enrolled for and any relevant results)
- Behavioural information (such as exclusions and any relevant alternative provision put in place)
- Consent for school trips and other activities out of school.
- Catering and free school meal management.
- Identity management and authentication.

### **How we collect pupil information**

We collect pupil information via Common Transfer Files, application forms, consent forms, Local Authority, health care professionals and assessments.

Pupil data is essential for the schools' operational use. Whilst the majority of pupil information you provide to us is mandatory, some of it is requested on a voluntary basis. In order to comply with the data protection legislation, we will inform you at the point of collection, whether you are required to provide certain pupil information to us or if you have a choice in this.

### **How we store pupil data**

We hold pupil data securely for the set amount of time shown in our data retention schedule. For more information on our data retention schedule and how we keep your data safe, please visit [www.irelethst-peters.cumbria.sch.uk](http://www.irelethst-peters.cumbria.sch.uk)

### **Who we share pupil information with**

The school is required to share pupils' data with the DfE on a statutory basis. The National Pupil Database (NPD) is managed by the DfE and contains information about pupils in schools in England. Ireleth St Peter's CofE School is required by law to provide information about our pupils to the DfE as part of statutory data collections, such as the school census; some of this information is then stored in the NPD. The DfE may share information about our pupils from the NDP with third parties who promote the education or wellbeing of children in England by:

- Conducting research or analysis.
- Producing statistics.
- Providing information, advice or guidance.

The DfE has robust processes in place to ensure the confidentiality of any data shared from the NDP is maintained. Ireleth St Peter's CofE School will not share your personal information with any third parties without your consent, unless the law allows us to do so. The school routinely shares pupils' information with:

- Pupils' destinations upon leaving the school
- The LA
- The NHS
- Health Care Providers and School Nurse
- Social Workers
- Accident Management Systems
- School visit management systems
- The DfE
- Online Educational Websites

For all queries about a SAR, please contact Mrs. J. Doherty at [admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)

- Online Reward Systems
- Payment systems including ComputerShare and Dolce

## Department for Education

The Department for Education (DfE) collects personal data from educational settings and local authorities via various statutory data collections. We are required to share information about our pupils with the Department for Education (DfE) either directly or via our local authority for the purpose of those data collections.

For more information, please see 'How Government uses your data' section.

## Requesting access to your personal data

Parents and pupils have the following rights in relation to the processing of their personal data. You have the right to:

- Be informed about how Ireleth St Peter's CofE School uses your personal data.
- Request access to the personal data that Ireleth St Peter's CofE School holds.
- Request that your personal data is amended if it is inaccurate or incomplete.
- Request that your personal data is erased where there is no compelling reason for its continued processing.
- Request that the processing of your data is restricted.
- Object to your personal data being processed.

Where the processing of your data is based on your consent, you have the right to withdraw this consent at any time. If you have a concern about the way Ireleth St Peter's CofE School and/or the DfE is collecting or using your personal data, you can raise a concern with the Information Commissioner's Office (ICO). The ICO can be contacted on 0303 123 1113, Monday-Friday 9am-5pm

## How Government uses your data

The pupil data that we lawfully share with the DfE through data collections:

- underpins school funding, which is calculated based upon the numbers of children and their characteristics in each school.
- Informs 'short term' education policy monitoring and school accountability and intervention (for example, school GCSE results or Pupil Progress measures).
- Supports 'longer term' research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school)

## Data Collection requirements

To find out more about the data collection requirements placed on use by the Department for Education (for example; via the school census) go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>

## The National Pupil Database (NPD)

Much of the data about pupils in England goes on to be held in the National Pupil Database (NPD).

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department.

It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

For all queries about a SAR, please contact Mrs. J. Doherty at [admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>.

### **Sharing by the Department**

The law allows the Department to share pupils' personal data with certain third parties, including:

- schools
- local authorities
- researchers
- organisations connected with promoting the education or wellbeing of children in England
- other government departments and agencies
- organisations fighting or identifying crime

For more information about the department's data sharing process, please visit:

<https://www.gov.uk/data-protection-how-we-collect-and-share-research-data>

Organisations fighting or identifying crime may use their legal powers to contact DfE to request access to individual level information relevant to detecting that crime. Whilst numbers fluctuate slightly over time, DfE typically supplies data on around 600 pupils per year to the Home Office and roughly 1 per year to the Police.

For information about which organisations the department has provided pupil information, (and for which project) or to access a monthly breakdown of data share volumes with Home Office and the Police, please visit the following website: <https://www.gov.uk/government/publications/national-pupil-database-requests-received>

To contact DfE: <https://www.gov.uk/contact-dfe>

## Ireleth St Peter's CofE School

### Privacy Notice

(How we use School Workforce Information)

#### Who processes your information?

Ireleth St Peter's CofE School is the data controller of the personal information you provide to us. This means the school determines the purposes for which, and the manner in which, any personal data relating to pupils and their families is to be processed. Mrs. J. Doherty and Mrs. R. E. McFarlane act as a representative for the school with regard to its data controller responsibilities; they can be contacted on 01229 462753 or [admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)

In some cases, your data will be outsourced to a third party processor; however, this will only be done with your consent, unless the law requires the school to share your data. Where the school outsources data to a third party processor, the same data protection standards that Ireleth St Peter's CofE School upholds are imposed on the processor.

Ms. Abbie. Bolton is the data protection officer. Their role is to oversee and monitor the school's data protection procedures, and to ensure they are compliant with the GDPR. The data protection officer can be contacted on 01229 462710 or [dpo@irelethst-peters.cumbria.sch.uk](mailto:dpo@irelethst-peters.cumbria.sch.uk)

#### The categories of school information that we process include:

We hold personal data about staff to support their employment and professional development, and to assess how the school is performing. We may also receive data about staff from previous employers, HR and occupational health workers.

Personal data that we may collect, use, store and share (when appropriate) about staff includes, but is not restricted to:

- Personal information (such as name, address, employee or teacher number, DBS number, national insurance number)
- Characteristics information (such as gender, age, ethnic group)
- Contract information (such as start date, hours worked, post, roles and salary information)
- Work absence information (such as number of absences and reasons)
- Qualifications (and, where relevant, subjects taught)
- Necessary medical information for health and safety purposes
- Payroll information for the purposes of wages and budget
- CPD training completed
- Performance management documentation and details of any support received
- Emergency contact details for next of kin
- Maternity/paternity pay information
- Photographs and/or videos

#### Why we collect and use workforce information

We collect and use personal data on the basis of performing a public task (educating children). We must make sure that information we collect and use about our workforce is in line with the GDPR and Data

Protection Act. This means that we must have a lawful reason to collect the data, and that if we share that with another organisation or individual we must have a legal basis to do so.

The lawful basis for schools to collect and process information comes from a variety of sources, such as Article 6 and Article 9 of the GDPR and the Safeguarding of Vulnerable Groups Act 2006. We also have obligations to organisations such as HMRC and the Department of Work and Pensions.

On some occasions we may ask for consent to process data when its use is optional. On those occasions consent can be withdrawn at any time. We will make this clear when we ask for consent, and explain how consent can be withdrawn.

We use this data to:

- Support you in your professional roles
- Monitor and report on school improvement and self-evaluation
- Provide appropriate pastoral care
- Protect pupil welfare
- Ensure that the information we hold about you is kept up to date
- To share with agencies such as payroll and pensions

### Collecting workforce information

Whilst the majority of information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with data protection legislation, we will inform you whether you are required to provide certain school workforce information to us or if you have a choice in this.

Collection methods include, but are not restricted to:

- Application forms
- Accident book
- Timesheets
- Contracts
- Safeguarding protocols
- Contact details on Scholar Pack
- Return to Work forms
- COVID LFT forms

Workforce data is essential for the school's /local authority's operational use. Whilst the majority of personal information you provide to us is mandatory, some of it is requested on a voluntary basis. In order to comply with GDPR, we will inform you at the point of collection, whether you are required to provide certain information to us or if you have a choice in this.

### Storing workforce information

We hold school workforce data for 6 years. For more information on our data retention schedule and how we keep your data safe, please see the policy folder in the Headteacher's office.

### Who we share workforce information with

We routinely share this information with:

- Local Authority - Cumbria County Council
- Carlisle Diocese

- The Department for Education (DfE)
- Capita
- Kym Allan – Health and Safety Consultants
- Training providers
- Online educational websites

### Why we share school workforce information

We do not share information about workforce members with anyone without consent unless the law and our policies allow us to do so.

#### Local authority

We are required to share information about our workforce members with our local authority (LA) under section 5 of the Education (Supply of Information about the School Workforce) (England) Regulations 2007 and amendments.

#### Department for Education (DfE)

The Department for Education (DfE) collects personal data from educational settings and local authorities via various statutory data collections.

We are required to share information about our pupils with the (DfE) under section 5 of the Education (Supply of Information about the School Workforce) (England) Regulations 2007 and amendments.

All data is transferred securely and held by DfE under a combination of software and hardware controls which meet the current [government security policy framework](#).

For more information, please see 'How Government uses your data' section.

### Requesting access to your personal data

Under data protection legislation, you have the right to request access to information about you that we hold. To make a request for your personal information, contact Mrs J Doherty or Mrs R McFarlane who act as a representative for school with regard to its data controller responsibilities.

You also have the right to:

- object to processing of personal data that is likely to cause, or is causing, damage or distress
- prevent processing for the purpose of direct marketing
- object to decisions being taken by automated means
- in certain circumstances, have inaccurate personal data rectified, blocked, erased or destroyed; and
- a right to seek redress, either through the ICO or through the courts

If you have a concern about the way we are collecting or using your personal data, we ask that you raise your concern with us in the first instance. Alternatively, you can contact the Information Commissioner's Office at <https://ico.org.uk/concerns/>

### Contact

If you would like to discuss anything in this privacy notice, please contact:

Mrs. R. E. McFarlane/Mrs. J. Doherty – School representative

[head@irelethat-peters.cumbria.sch.uk](mailto:head@irelethat-peters.cumbria.sch.uk)

[admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)

Ms. Abbie. Bolton– Data Protection Officer (DPO)

[dpo@irelethst-peters.cumbria.sch.uk](mailto:dpo@irelethst-peters.cumbria.sch.uk)

01229 462710

xxxxxxxx – Governor Representative

### How Government uses your data

The workforce data that we lawfully share with the DfE through data collections:

- informs departmental policy on pay and the monitoring of the effectiveness and diversity of the school workforce
- links to school funding and expenditure
- supports ‘longer term’ research and monitoring of educational policy

#### Data collection requirements

To find out more about the data collection requirements placed on us by the Department for Education including the data that we share with them, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

#### Sharing by the Department

The department may share information about school employees with third parties who promote the education or well-being of children or the effective deployment of school staff in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The Department has robust processes in place to ensure that the confidentiality of personal data is maintained and there are stringent controls in place regarding access to it and its use. Decisions on whether DfE releases personal data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data
- the purpose for which it is required
- the level and sensitivity of data requested; and
- the arrangements in place to securely store and handle the data.

To be granted access to school workforce information, organisations must comply with its strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.

To contact the department: <https://www.gov.uk/contact-dfe>

## Privacy Notice for Governors

### Privacy Notice

#### (How we use governance information)

Ireleth St Peter's are the data controller under the UK General Data Protection Regulation (UK GDPR) for the use of personal data explained in this Privacy Notice.

#### The categories of governance information that we process include:

- personal information like name, date of birth, gender identity, contact details including address and postcode;
- financial or business information like a governor's outside financial or business interests, or bank details for expense payments;
- Special categories of data like criminal conviction or social care action information for legal and safeguarding reasons, next of kin and medical information (to prevent or manage a health or medical issue), and **protected** characteristics information like gender identity or religion.
- governance details like their role, start and end dates and governor ID.

#### Why we collect and use this information

The personal data we collect is essential to fulfil our official functions and meet legal requirements.

We are a maintained school and have a legal duty under [section 538 of the Education Act 1996](#) to provide governance information to the Get Information About Schools (GIAS) scheme online.

We also use governor data to:

- a) comply with the law and keep governors safe;
- b) recruit appropriately; and
- c) enable individuals to be paid expenses.

Under **UK GDPR**, the lawful bases we rely on for processing personal **governance** information are:

- 6(1)(b) to enter into or carry out a contract e.g. to appoint governors, include them in services we buy like access to online subscriptions we hold, **or to engage with our training or activity providers.**
- 6(1)(c) to comply with the law e.g. publishing information on our website and submitting data to GIAS.
- 6(1)(a) having consent e.g. to use images and names in publicity.

When we process sensitive personal information like medical **data or criminal history** we rely on lawful bases:

- 9(2)(a) having consent e.g. for referral to occupational health or other support services.
- 9(2)(b) to comply with the law e.g. pre-appointment criminal record checks, providing reasonable adjustments to governor tasks or election procedures.**
- 9(2)(i) to improve public health e.g. we are required to report infections, like meningitis, Covid-19<sup>1</sup> or e-Coli, to local and national government departments;
- 9(2)(f) to **make** or defend a legal claim e.g. all accident records etc.

---

<sup>1</sup> Visit: <https://www.gov.uk/guidance/maintaining-records-of-staff-customers-and-visitors-to-support-nhs-test-and-trace#information-to-collect>, if you want more information about Test and Trace, what data they collect and what they do with it.

## Collecting governance information

We collect personal information via governor application, [contact, or](#) service provider [registration](#) forms or online registration [processes](#).

Most of the information we ask for is required by law or necessary so we can run the school effectively and some of it is voluntary. To comply with data protection legislation, if you have a choice about providing information, we will tell you when we ask for it.

## Storing governance information

We hold governor data securely in line with the Information and Records Management Society (IRMS) [Records Management Toolkit for Schools](#). Most data about governors is kept for between 6 months and 6 years after an election or term of office ends, although some is kept for much longer e.g. minutes of governor meetings showing attendees are kept for the lifetime of a school. For more information about how long we keep some information for and why (data retention), and how we keep [the](#) data safe, please [see our Data Protection Policy and data asset register](#)].

## Who we share governance information with and why

We do not share information about [individuals in governance roles](#) with anyone without consent unless the law and our policies allow us to do so. The laws listed in this notice that require us to collect information also require us to share it. Data is transferred securely by hand delivery or registered post, via a government data transfer system like GIAS, and sometimes in other secure ways.

We routinely share governor information with:

- [our local authority \(as above\),](#)
- our financial services provider to pay expenses;
- Public Health England and, to support test and trace and similar public health emergency action, other partners like the NHS, Local Authority Public Health, and District Council Environmental Health Departments
- other organisations like an off-site training or activity provider that needs next of kin or medical details to manage them safely, and third-party service providers like online subscriptions, [but usually only with consent.](#)

## Sharing with the Department for Education

The Department for Education (DfE) collects personal data from educational settings and local authorities via various statutory data collections.

All data is entered manually on the GIAS system and held by DfE under a combination of software and hardware controls which meet the current [government security policy framework](#).

For more information, please see 'How Government uses your data' section.

## Requesting access to your personal data

Under [UK GDPR](#), you have the right to request access to information about you that we hold. To make a request for your personal information, contact Mrs. J. Doherty at the school office.

- [Depending on which lawful basis above was used to process the data,](#) you may also have a right to:
- [object to processing of personal data that is likely to cause, or is causing, damage or distress,](#)
- [prevent processing for the purpose of direct marketing,](#)
- [object to decisions being taken by automated means,](#)
- [in some circumstances, have inaccurate personal data rectified, blocked, erased, or destroyed; and](#)
- [a right to seek redress, either through the ICO, or through the courts](#)

If you have a concern about the way we are collecting or using your personal data, we request that you raise your concern with us in the first instance. Alternatively, you can contact the Information Commissioner's Office at <https://ico.org.uk/concerns/>.

For more information on how to request access to personal information held centrally by the DfE, please see the 'How Government uses your data' section of this notice.

### Withdrawal of consent and the right to lodge a complaint

If we are only processing your personal data because you consented, you have the right to withdraw that consent. If you change your mind, or you are unhappy with our use of your personal data, please let us know by contacting Mrs. J. Doherty at the school office.

### Last updated

This privacy notice was compiled using [DfE advice and model documents](#). We may need to review it periodically, so we recommend that you revisit this information from time to time. This version was last updated on September 2021.

### Contact

If you would like to discuss anything in this privacy notice, please contact: Mrs. J. Doherty or Mrs. R. E. McFarlane at the school office.

## How Government uses your data

The [governance](#) data that we lawfully share with the DfE [via GIAS](#) will:

- increase the transparency of governance arrangements;
- enable maintained schools and academy trusts and the department to identify more quickly and accurately individuals who are involved in governance and who govern in more than one context;
- allow the DfE to be able to uniquely identify an individual and in a small number of cases conduct checks to confirm their suitability for this important and influential role.

### Data collection requirements

To find out more about the requirements placed on us by the DfE including the data that we share with them, go to <https://www.gov.uk/government/news/national-database-of-governors>

**Note:** Some of these personal data items are not publicly available and are encrypted within the GIAS system. Access is restricted to a small number of DfE staff who need to see it in order to fulfil their official duties. The information is for internal purposes only and not shared beyond the department, unless the law allows it.

### How to find out what personal information DfE hold about you

Under the terms of the UK Data Protection Act 2018, you're entitled to ask the Department:

- if they are processing your personal data;
- for a description of the data they hold about you;
- the reasons they're holding it and any recipient it may be disclosed to;
- for a copy of your personal data and any details of its source.

If you want to see the personal data held about you by the DfE, you should make a 'subject access request'. Further information on how to do this can be found in the DfE's personal information charter published at: [www.gov.uk/government/organisations/department-for-education/about/personal-information-charter](http://www.gov.uk/government/organisations/department-for-education/about/personal-information-charter)

To contact the department: [www.gov.uk/contact-dfe](http://www.gov.uk/contact-dfe).

## Privacy Notice

(How we use visitors' information)

Ireleth St Peter's are the data controller under the UK General Data Protection Regulation (UK GDPR) for the use of personal data explained in this Privacy Notice.

**The categories of visitor information we process include:**

- Personal information like your name, employer (if relevant to why you are here), and some location or other data e.g. the date & time you were here and your car registration if you are using our car park).
- Special categories of data like a disability we need to accommodate or positive Covid-19 result.

**We use this data to** comply with the law, for safety and security reasons, but also to understand who visits us, why, and to improve the visitor experience.

**If you visit us** during the coronavirus (COVID-19) pandemic **and are aged 16 or over**, we will ask for your contact telephone number and the names of individuals or groups you met with here face-to-face *for more than 15 minutes* because the law requires us to for the good of public health.

**We will keep this information** for 21 days and we will give it to any authorised UK Test and Trace Service<sup>1</sup> if they ask. After 21 days, the data held will be disposed of securely.

**This does not affect your statutory data protection rights.**

If you want to know more or have concerns, please contact Mrs. J. Doherty or Mrs. R. E. McFarlane at [admin@irelethst-peters.cumbria.sch.uk](mailto:admin@irelethst-peters.cumbria.sch.uk)

Alternatively, you can contact the Information Commissioner's Office at <https://ico.org.uk/concerns/>

---

## Visitor Booking/Record Form (Covid-19)

During the current public health emergency (coronavirus disease Covid-19), visitors are strictly by prior appointment only. To support the Public Health Test and Trace system to control spread of the disease, we need your name and a contact, preferably mobile phone number before going further than reception. Please also record who you came into close contact with during your visit (see definitions below). We will keep this information securely in accordance with the Data Protection Act 2018.

Please complete **all** sections marked with a \*. You do not have to, but including your job, the name of your employer, an employer's contact telephone number, and your email details will help us analyse how well our visitor procedures are working for different groups, update you more quickly if something happens that impacts your visit, and help us provide information quickly to people who are affected if we have a confirmed case.

**Please return completed forms to reception before leaving the premises. If you answered 'YES' to any health question, please alert a member of the office staff or the person you are visiting as soon as possible.**

<b>* Name:</b> .....		
<b>* Mobile Tel No.:</b> .....		
<b>Email address:</b> .....		
<b>Job/Role/Service:</b> .....		
<b>Name of employer</b> .....		<b>Employer Tel No.</b> .....
<b>* Date of Visit:</b> .....	<b>* Time IN:</b> .....	<b>* Time OUT:</b> P.T.O. ....

<b>* Before you start your visit - please answer all questions</b>		
<b>1.</b> Have you been diagnosed with Covid-19 in the last <b>10</b> days? If <b>NO</b> , go to question 2. If <b>YES</b> , have you completed the full 10 day isolation period?	<b>YES</b>	<b>NO</b>
<b>2.</b> Do you have a fever (temp. above 37.8°C) or have you experienced fever in the last <b>10</b> days?	<b>YES</b>	<b>NO</b>
<b>3.</b> Have you experienced an onset of respiratory problems, like a cough or difficulty breathing, within the last <b>10</b> days?	<b>YES</b>	<b>NO</b>
<b>4.</b> Do you currently have (or have you experienced within the last <b>10</b> days):		
• Loss of or change in your sense of taste or smell (anosmia);	<b>YES</b>	<b>NO</b>
• Shortness of breath; or	<b>YES</b>	<b>NO</b>
• Fatigue (beyond what you normally experience).	<b>YES</b>	<b>NO</b>
<b>5.</b> Have you, in the last <b>10</b> days, regularly come into close contact** with someone who is in self-isolation because they are ill or because they have received a positive Covid-19 test result?	<b>YES</b>	<b>NO</b>
<b>** Close contact means:</b>		
• Direct close contact - face to face contact with an infected individual for any length of time, within 1m, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin).		
• Proximity contacts - extended close contact (within 1m to 2m for more than 15 minutes) with an infected individual.		
• Travelling in a small vehicle, like a car, with an infected person.		

Visit: <https://www.gov.uk/guidance/maintaining-records-of-staff-customers-and-visitors-to-support-nhs-test-and-trace#information-to-collect>, if you want more information about Test and Trace, what data they collect and what they do with it.

**\* During Your Visit**

I understand that there will be risk control measures in place on site that I will be told about and must follow, and if I want to see the full risk assessment, I can ask for a copy.

YES NO

**\* After Your Visit**

Please name the people/groups that you have had close contact\*\* with (judging it as if those contacts were with infected people as described on p1) *and* the rooms you have visited.

Staff or other adults	Groups or Individuals	Rooms visited (incl. toilet facilities, staff room etc.)

I understand the information provided on this form will be used to respond to any Covid-19 infection related to our site, or if you yourself report an infection to us. We are expected to work with the local Public Health team when dealing with any Covid-19 infections or outbreaks and will provide the contacts of all employees, users and visitors to our premises where relevant. We will keep a temporary record of our visitors' personal details for 21 days after which they will be securely disposed of.

**Time OUT:** .....

**Signed:** .....

## INSTRUCTIONS FOR USE

To support the test and trace process administered by the local Public Health Department of the Local Authority, this form is to be issued to every visitor who has an appointment to come into the premises.

The form **must** be fully completed and left securely with Reception **before** the visitor leaves. It should be held securely for 21 days after which it must be securely destroyed.

When we have a confirmed case of Covid-19 that has potentially affected a worker who is **not** our employee, especially one whose job it is to travel to different places of work, we might tell their employer if we are advised to by Public Health, or if there has been a serious risk incident (i.e. close contact with our confirmed case) that could be an immediate danger to the health and safety of their employee and any other people affected by their business. This is the job of the national and local Test & Trace services, but all employers have a duty to share limited data solely for the good of public health, and a duty of care towards all other employers that they cooperate and coordinate with when they become aware of a serious risk.

Forms must be reviewed by a senior manager before destruction to ensure that the control of visitors remains good (i.e. all visits were necessary) and to identify whether the risk profiles of particular individuals or groups are significantly impacted by their exposure to necessary visitors. This will help to decide whether current risk controls are adequate (in the same way the work some staff do across different bubbles is being monitored).

Electronic sign-in systems that don't ask for a mandatory health declaration, a mandatory phone number, don't have space to record multiple people a visitor might meet, cannot be edited later to add detail (like who was met with and where if it changed during the visit), and which can't delete that data after 21 days without being burdensome or destroying visitor records that need to be kept for longer, will need to be updated so it does, or it needs to be supplemented with a paper trail that records the missing data in a useful and reasonably secure way.

Display the temporary Privacy Notice for visitors wherever visitors will be when they are asked to provide their personal information which explains what data is being held and for what purpose for the duration of the pandemic.

### Staff receiving forms - please note:

If the answer to **health question 1** is **YES**, and the answer to the follow-up question is **YES**, the individual may enter our premises because they have followed self-isolation rules.

If the answer to **health question 1** is **YES**, and the answer to the follow-up question is **NO**, the individual **must** be denied entry to our premises because they are not following self-isolation rules.

If the answer to any **one** of the **health questions 2-5** is **YES**, the individual **must** be denied entry to our premises. Failure to follow self-isolation rules is unlawful.

## Data Classifications and Handling Requirements

This is an indicative rather than exhaustive guide to data classification and the resulting data handling requirements. All relevant queries should be directed to the Data Protection Officer, Mrs. J. Doherty or Mrs. R.E. McFarlane. Contact details are enclosed within this policy.

	Public	Confidential	Sensitive
<b>Impact if the information becomes public</b>	<b>No risk</b>	<b>Low-Medium Risk</b> May result in minor reputational or financial damage to the school. May result in minor privacy breach for an individual.	<b>Medium-High Risk</b> Could substantially damage the reputation of the school, have a substantial financial effect on school or a third party, or would result in a serious privacy breach to one or more individuals.
<b>Description of the information</b>	Information that does not require protection and is considered “open and unclassified” and which may be seen by anyone whether directly linked with school or not. Information is likely to already exist in the public domain.	May result in minor reputational or financial damage to the school. May result in a minor privacy breach for an individual. Information that should only be available to sub-groups of staff within the school who need the information to carry out their roles.	Information that has the potential to cause serious damage or distress to individuals or serious damage to the school’s interests if disclosed inappropriately. Information which is sensitive in some way because it might be sensitive personal data, commercially sensitive, legally privileged or under embargo. This information should only be available to a small tightly restricted group of authorised users.
<b>Examples of information</b>  This list is indicative not exhaustive if unsure ask <b>name/role</b> for advice	<ul style="list-style-type: none"> <li>● Prospectus ● Press releases ● Open content on the school web site ● Publicity flyers and leaflets ● Published information released under the Freedom of Information Act</li> <li>● Policies, annual reports and financial statements ● Job adverts (excluding internal only positions) ● staff names and contact details</li> <li>● Staff publications. ● Agendas and minutes of school committees and working groups (except reserved business). ● Patented intellectual property.</li> </ul>	<ul style="list-style-type: none"> <li>● Student personal details e.g. demographics, personal email address etc. ● Staff personal details e.g. demographic, payroll number, personal email address etc. ● Internal only school policies, processes and guidelines. ● Internal only job adverts. ● Tender bids prior to award of contract ● Individual’s salaries</li> <li>● Student’s assessment marks. ● Job application responses/CVs (unless they contain sensitive personal information).</li> </ul>	Sensitive personal data and some other data. <ul style="list-style-type: none"> <li>● Exam questions prior to use ● Medical records ● UPRNs ● Usernames and passwords ● Investigations/disciplinary proceedings.</li> <li>● Payment card details. ● Financial information (banking details and data not already disclosed in financial statements). ● Passwords and access codes to school systems. ● Some complaints or requests ● Biometric data</li> </ul>
<b>Security Marking</b>	No marking required	Must be clearly marked as <b>Confidential</b>	Must be clearly marked as <b>Sensitive</b>

	Public	Confidential	Sensitive
<b>Storage (electronic)</b>	<ul style="list-style-type: none"> <li>● Store using school IT facilities to ensure appropriate management, back-up and access.</li> <li>● Use only the school approved cloud service Ireleth St Peter's Some cloud services may <b>not</b> be used because they link to computer C: drives which is not secure.</li> </ul>	<ul style="list-style-type: none"> <li>● Store only on the school IT network and never on the C: drive of a PC/laptop (beware downloading information when a laptop is not connected to the school domain - the download will go onto the C: drive and you may be in breach of this policy).</li> <li>● Store only on the C: drive of a specially encrypted PC/laptop.</li> <li>● Store only on the approved cloud service in a suitably restricted folder.</li> <li>● Portable devices such as USB sticks must be encrypted and must <b>not</b> be used for long term storage due to the risks of loss or corruption of data.</li> <li>● Never to be stored on any personal device or personal cloud service not controlled by school or on any unencrypted school device e.g. tablet, laptop, mobile phone etc.</li> </ul>	<ul style="list-style-type: none"> <li>● Store only on the school IT network in rigorously monitored &amp; restricted access drives.</li> <li>● Never to be stored on the approved cloud service unless also separately encrypted.</li> <li>● Never to be stored on any portable storage device i.e. USB drive regardless of encryption.</li> <li>● Never to be stored on any personal device or personal cloud service not controlled by school or on any school device e.g. tablet, laptop, mobile phone etc. unless it has been specially encrypted <i>and</i> there are other high level procedural safeguards.</li> </ul>
<b>School Website</b>	No restrictions	Not permitted	Not permitted
<b>Storage (hardcopy)</b>	No restrictions	In a lockable cabinet/drawer which is locked when unattended and where the room is also locked when unoccupied. If not in a lockable store the room where this classification of data is kept should be locked at all times when unattended and must have restricted access.	In a lockable cabinet/drawer which is locked when unattended and where the room is also locked when unoccupied. If not in a lockable store the room where this classification of data is kept should be locked at all times when unattended and must have restricted access.
<b>Email hosted by school</b>	No restrictions	Emails to external recipients must not contain this data. It must be an encrypted email or sent as an encrypted attachment and the password conveyed by a separate mechanism e.g. telephone. Emails to internal recipients i.e. school email account-to-school email account are secure, so encryption and encrypted attachments are not necessary.	Emails to external recipients must not contain this data. It must be an encrypted email or sent as an encrypted attachment and the password conveyed by a separate mechanism e.g. telephone. Emails to internal recipients i.e. school email account-to-school email account are secure, so encryption and encrypted attachments are not necessary.
<b>Personal email account e.g. Hotmail etc.</b>	No restrictions	Not permitted	Not permitted
<b>Post (Internal)</b>	No restrictions	In a sealed envelope marked Confidential.	Seal envelope, mark Confidential & hand deliver.

	Public	Confidential	Sensitive
<b>Post (External)</b>	No restrictions	Tracked and recorded delivery only and marked Confidential	Tracked and recorded delivery only and marked Confidential within two separate envelopes.
<b>School-based server</b>	No restrictions but consideration should be given to back-up requirements.	No storage or creation is permitted unless the server environment is equivalent to the school-based server or the CTU server environment.	No storage or creation permitted unless the server environment is equivalent to the school-based server or the CTU server environment.
<b>School owned laptop</b>	No restrictions but do <b>not</b> use to store master copies of vital records.	The internal storage (hard drive(s), HDDs, SSDs) must be encrypted and set to lock after five minutes of inactivity.	The internal storage (hard drive(s), HDDs, SSDs) must be encrypted and set to lock after five minutes of inactivity.
<b>Personally owned mobile device</b>	No restrictions	Only to be stored on devices that are encrypted and have PIN/password/Biometric access controls applied in line with the ICO <a href="#">BYOD</a> guidance document.	Not permitted unless authorised by the Senior Information Risk Owner (SIRO). Only then to be stored on devices that are encrypted and have PIN/password/Biometric access controls applied in line with the ICO <a href="#">BYOD</a> guidance document.
<b>School owned desktop (public areas)</b>	No restrictions, but always lock the screen when unattended.	Not permitted. The risk of incidental disclosure is too high.	Not permitted. The risk of incidental disclosure is too high.
<b>School owned desktop (key/card access controlled areas)</b>	No restrictions, but always lock the screen when unattended.	Only permitted on encrypted drives or using or password protected files. Always lock the screen when unattended.	Only permitted on encrypted drives. Always lock the screen when unattended.
<b>School owned mobile device</b>	No restrictions, but always lock the screen when unattended.	Only to be stored on devices that are encrypted and have PIN/password/Biometric access controls applied in line with our policy and the ICO <a href="#">BYOD</a> guidance document.	Not permitted unless authorised by the SIRO. Only then to be stored on devices that are encrypted and have PIN/password/Biometric access controls applied in line with our policy and the ICO <a href="#">BYOD</a> guidance document
<b>Removable media (CDs, USB drives etc.)</b>	No restrictions.	Encrypted storage with strong password e.g. 8 characters or longer and a mixture of uppercase, lowercase, digits and special characters.	Encrypted storage with strong password e.g. 8 characters or longer and a mixture of uppercase, lowercase, digits and special characters.
<b>Disposal</b>	No restrictions. Recycle where possible.	Shred or place in a confidential waste bag. Delete from electronic media when no longer required.	Cross shred only & put shredded material into the confidential waste. Appropriately scrub data from devices. Some devices (encrypted USB drives) may need to be securely destroyed. Seek advice from the IT manager.
